

FEBRUARY 2023 | NEWSLETTER 5

# VISITOR

VIRTUAL MUSEUMS IN THE COVID ERA

Co-funded by the  
Erasmus+ Programme  
of the European Union

Project code: 2020-1-FR01-KA226-SCH-095600

## VISITing NICE

In February 2023, the consortium met up in Nice (France) for the final transnational meeting. All partner organisations were present, some in-person and others virtually.

We used this opportunity to finalise discussions about the three project results and elaborate on how testing was going.

We are excited to report that the testing phase for the project results is nearing its end and partners are optimistic about the project's future potential.

Wrapping Up: The Last Transnational Meeting of the VISITOR Project

# Multiplying the Learning around Europe

Our partners have been spreading the word around about VISITOR

## VISITOR Multiplier Event in Greece

Held on December 5, 2022 at the Stratos Vasilikos Hotel in Athens and organised by IDEC and Hellenic Open University, the event successfully gathered 45 attendees, mainly consisting of secondary education teachers and professors, with some private sector attendees as well.

## Hands-on Workshop

The event focused on the digital world and cultural heritage, demonstrating how the Visitor project tools can be used to present cultural heritage in classrooms. The event also included a workshop where participants could test the project's digital tools.

Attendees found the multiplier event both interesting and useful for their personal and professional development.

## UK Multiplier Event

The UK multiplier event was held on February 13, 2023, at The Open University in Milton Keynes (England). The event saw 20 attendees from different fields, including school teachers, museum educators, academics, learning technologists, and XR specialists.

Participants were briefed on the project's aims and outcomes and engaged in group activities and discussions. The event concluded with ideas for further development and partnerships, as well as how VISITOR tools can be used in other contexts.

# WHAT'S NEXT

## FUTURE STEPS

As we near the end of the testing phase, the partnership has been discussing the exciting potential of the VISITOR project for the future.

**We appreciate the hard work of our partners and testers who have helped us make this possible!**

We are confident that their efforts will enable us to provide high-quality resources to the public, including the project's website, virtual museum game, e-learning course, and digital library.

We are excited to see the evolution of VISITOR beyond this project, as we discuss potential business models.

### PAID VERSION OF OUR RESOURCES

The possibility of a paid version of our resources was discussed, alongside the free version, to provide additional benefits for those visitors who want to dive deeper.

### COLLABORATIONS WITH MUSEUMS

Ongoing discussions are being held with museums that require virtual space for their exhibitions and would benefit from the resources created by the VISITOR project.

### FURTHER TRAINING FOR EDUCATORS

Some partners have expressed interest in continuing to use the e-learning course to train educators on virtual museum teaching or redesigning them from pilot tests.

### OTHER ERASMUS+ PROJECTS

All partners agree that the VISITOR project resources could serve as a good base for other Erasmus+ projects in the future, or even the creation of VISITOR 2.0.

# THANK YOU FOR JOINING US

As we say goodbye to the VISITOR project, we would like to express our excitement about the future of virtual museums.

We believe that the integration of these innovative tools into the classroom can greatly enhance engagement and provide unique learning experiences for students.

The VISITOR project has been a tremendous success in developing resources to make this vision a reality, and we are thrilled to see what the future holds for this field.

**Thank you for joining us on this journey and we hope to continue exploring the possibilities of virtual museums together!**

**VISITOR**  
VIRTUAL MUSEUMS IN THE COVID ERA

The VISITOR (Virtual muSeums In The cOvid eRa) project has been co-funded with support from the European Commission, and it will be implemented from March 2021 to February 2023. The project content reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.
